

Transition to A Level Biology Essay

Using your knowledge from GCSE and the AQA transition booklet, write an essay with the following title:

The importance of the structure of biological molecules (20)

This essay is 20 marks, should take no more than an hour to write and is marked with the following expectations:

- Clear links between different topics with at least 4 different topics discussed that all relate to the essay title
- Well written and clearly explained biological content
- Detailed, comprehensive use of key terminology including advanced terms
- Detailed explanation of the importance
- Extension: to use content to demonstrate evidence of reading beyond the specification
