Special Educational Needs and Disability (SEND) Policy

This policy aims to support inclusion for all of our students. The responsibility for the management of this policy falls to the Headteacher; the day-to-day operation of the policy is the responsibility of the Special Educational Needs Co-ordinator (SENCo). The Governing Body, Headteacher and the SENCo will work together closely to ensure that this policy is working effectively. This policy pays due regard to:

- The SEND Code of Practice (April 2015)
- Part 3 of the Children and Families Act (2014) and associated regulations

Raynes Park High School will do its best to ensure that the necessary provision is made for any student who has special educational needs or disabilities. High quality teaching is that which is adapted to meet the needs of the majority of students. Some students will need something **additional to** and **different from** what is provided for the majority of students; this is special educational provision and we will use our best endeavours to ensure that provision is made for those who need it.

We will ensure that all staff in the school are able to identify and provide for those students who have Special Educational Needs or Disabilities (SEND) to allow students with SEND to join in the activities of the school. The staff and governors of the school will also work to ensure that all SEND students reach their full potential, are fully included within the school community and are able to make successful transfers between educational establishments. This policy aims to support all members of staff in providing positive whole school approaches towards the learning, progress and achievement of SEND students. With this as an underlying principle, we believe that all teachers are teachers of Special Educational Needs. Every teacher is responsible and accountable for the progress and development of all students in their class, even where students access support from Learning Support Assistants (LSAs) or specialist staff.

Teaching and supporting students with SEND is therefore a whole school responsibility requiring a whole school response. Meeting the needs of students with SEND requires partnership working between all those involved – Local Authority (LA), school, parents/carers, students and all other agencies.

School Admissions

No student will be unreasonably refused admission to school on the basis of his or her special educational need. In line with the Equality Act (2010) we will not discriminate against students with disabilities in respect of admissions for a reason related to their disability. We will use our best endeavours to provide effective educational provision.

Aims and Objectives

Aims

To provide the structure for a student-centred process that engages student, family, school and other professionals in planning for and implementing high quality, needs led provision that is consistent across the school. This is to ensure all of our students are able to access the same opportunities for learning and social development achieving maximum progress, fulfilling their potential and promoting their well-being.

Objectives

This SEND Policy reflects the principles of the 0-25 SEND Code of Practice (2015). The aims of this Special Educational Needs Policy are to:

- Ensure the Equality Act (2010) duties for students with disabilities are met
- To enable students with Special Educational Needs to have their needs met
- To take into account the views of the students with Special Educational Needs
- To encourage good communication and genuine partnerships with parents/carers of children with Special Educational Needs
- To facilitate full access to a broad, balanced and relevant education, including an appropriate curriculum for students with Special Educational Needs
- To make arrangements to support students with medical conditions and to have regard to statutory guidance supporting students at school with medical conditions
- To implement a graduated approach to meeting the needs of students using the Assess, Plan, Do, Review process,
- Develop a culture of inclusion valuing high quality teaching for all learners, with teachers using a range of effective adaptive methods
- Employ a collaborative approach with learners with a special education need or disability, their families, staff within school and other external agencies
- Set appropriate individual learning outcomes based on prior achievement, high aspirations and the views of the learner and family
- Make efficient and effective use of school resources
- Have regard to the Code of Practice (2015) for the identification, assessment, support and review of Special Educational Needs

Definition of SEND

Students have Special Educational Needs if they have a learning difficulty or disability which calls for special education provision to be made for him/her. This provision will be ***additional to or different from*** that is normally available in an adapted curriculum.

Any school regards students as having a Special Educational Need if they:

- a) Have a significantly greater difficulty in learning than the majority of students of the same age, or;

- b) Have a disability which prevents or hinders him/her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions
- c) A child under compulsory age has Special Educational Needs if they fall within the definition at (a) or (b) above or would do so if special educational provision was not made for them (Section 20 Children and Families Act (2014))

Students must not be regarded as having a learning difficulty solely because the language or form of language of their home is different from the language in which they will be taught.

We will have regard for the SEND Code of Practice (2015) when carrying out our duties towards all students with SEND and ensure that parents/carers are informed by the school that SEND provision is being made for their child. There may be times in a student's school career when they are identified as having a Special Educational Need. These students will be provided with intervention and/or support that is 'additional to or different from' the normal adapted curriculum. This may be on an ongoing basis or for a limited time. Many students with sensory and/or physical disabilities may require adaptations, made as reasonable adjustments under the Equality Act (2010).

Areas of Special Educational Need

Under the SEND Code of Practice (2015) students identified as having a Special Educational Need (SEN) will be considered within one or more of the following categories of need:

Cognition and Learning

Students with learning needs may learn at a slower pace than other students and may have difficulty developing literacy or numeracy skills or understanding new concepts. Learning needs may be in addition to or as a result of other special educational needs.

Students with a Specific Learning Difficulty (SpLD) will have difficulties related to one or more of the following; Dyslexia (reading and spelling), Dyscalculia (maths), Dyspraxia (co-ordination) and Dysgraphia (writing).

Learning difficulties cover a wide range of needs, including Moderate Learning Difficulties (MLD), Severe Learning Difficulties (SLD), where students are likely to need support in all areas of the curriculum and associated difficulties with mobility and communication, through to Profound and Multiple Learning Difficulties (PMLD), where students are likely to have Severe and Complex Learning Difficulties as well as a Physical Disability or Sensory Impairment.

Cognition and Learning needs include:

- Specific learning difficulties (SpLD)
- Moderate learning difficulties (MLD)
- Severe learning difficulties (SLD), and
- Profound and multiple learning difficulties (PMLD)

Social, Emotional and Mental Health Difficulties

Students may experience a wide range of social and emotional difficulties which manifest themselves in many ways. These may include becoming withdrawn or isolated, as well as displaying challenging, disruptive or disturbing behaviour. These behaviours may reflect underlying mental health difficulties such as anxiety or depression, self-harming, substance misuse, eating disorders or physical symptoms that are medically unexplained.

Other students may have disorders such as Attention Deficit Disorder (ADD), Attention Deficit Hyperactive Disorder (ADHD) or attachment disorder.

Social, Emotional and Mental Health Difficulties include:

- Attention Deficit Disorder (ADD)
- Attention Deficit Hyperactive Disorder (ADHD)
- Attachment Disorder

Communication and Interaction needs

Students with Speech, Language and Communication Needs (SLCN) have difficulty in communicating with others. This may be because they have difficulty saying what they want to, understanding what is being said to them or because they do not understand or use social rules of communication. The profile for every child with SLCN is different and their needs may change over time. They may have difficulty with one, some or all of the different aspects of speech, language or social communication at different times of their lives. Students with autism, are likely to have particular difficulties with social interaction. They may also experience difficulties with language, communication and imagination, which can impact on how they relate to others.

Communication and Interaction Needs include:

- Speech, Language and Communication Needs (SLCN)
- Autism

Sensory and/or Physical needs

Some students require special educational provision because they have a disability and this prevents or hinders them from making use of the educational facilities generally provided. These difficulties can be age related and may fluctuate over time.

Many students with a Vision Impairment (VI), Hearing Impairment (HI) or a Multi-Sensory Impairment (MSI) will require specialist support and/or equipment to access their learning. Students with an MSI have a combination of vision and hearing difficulties. Some students with a physical disability (PD) require additional ongoing support and equipment to access all the opportunities available to their peers.

Sensory and/or physical needs include:

- Visual Impairment (VI)
- Hearing Impairment (HI – including Deaf and hearing impairment)
- Multi-sensory Impairment (MSI - sometimes referred to as Deafblind)
- Physical Disability (PD)

1. A Graduated Response to SEND

Early Concerns

The progress made by all students is regularly monitored and reviewed. Initially, concerns registered by teachers, parents/carers or other agencies are addressed by appropriate adaptation within the classroom and a record is kept of strategies used. This can be then used in later discussions if concerns persist.

How we identify and support students with SEN

All students' attainment and achievements are monitored by their teacher who is required to provide high quality teaching and learning opportunities adapted for individual students. Where a student is making inadequate progress or falls behind their peers, additional support will be provided under the guidance of the class teacher. Adequate progress could:

- Be similar to that of peers
- Match or better the students' previous rate of progress
- Close the attainment gap between the student and their peers
- Prevent the attainment gap growing wider

Where students continue to make inadequate progress despite support and high quality teaching, the class teacher will work with the school's Special Educational Needs Coordinator (SENCo) to assess if a student has a significant learning difficulty and agree appropriate support.

In some cases, it may be necessary to seek assessment by or advice from an external professional such as a specialist teacher or Educational Psychologist. This will always involve discussion and agreement with the student's parents/carers.

When considering whether a student has a Special Educational Need any of the following may be evident:

- Makes little or no progress even when teaching approaches are targeted particularly in a student's identified area of weakness
- Shows signs of difficulty in developing literacy or numeracy skills which result in poor attainment in some curriculum areas

- Persistent emotional or behavioural difficulties which are not ameliorated by appropriate behaviour management strategies
- Has sensory or physical problems and continues to make little or no progress despite the provision of specialist equipment
- Has communication and /or interaction difficulties and continues to make little or no progress despite the provision of an appropriate adapted curriculum
- Has emotional or behavioural difficulties which substantially and regularly interfere with the student's own learning or that of the class groups, despite having an individualised behaviour support programme
- Has SEND or physical needs that require additional specialist equipment or regular advice or visits by a specialist service
- Has a communication and/or an interaction difficulty that impedes the development of social relationships and cause a substantial barrier to learning

Assess, Plan, Do, Review

Where a student is identified as having SEN, we will take action to support effective learning by removing barriers to learning and put effective special educational provision in place. This **SEND support** will take the form of a four-part cycle through which earlier decisions and actions are revisited, refined and revised with a growing understanding of the student's needs and of what supports the student in making good progress and securing good outcomes. This is known as **the graduated approach – Assess, Plan, Do, Review**.

For students with low level special educational needs the cycle of **Assess, Plan, Do** and **Review** will fit into the regular termly assessment and planning cycle for all students. These are known as Progress Meetings/Parents' Evening. For those students with more complex needs or for who a more frequent cycle needs to be employed additional meeting dates will be set and will include the termly Progress Meetings.

Graduated Response:

Assess

- In identifying a student as needing SEN support (K) the class teacher, working with the SENCo, should carry out a clear analysis of the student's needs. This should draw on the teacher's assessment and experience of the student, their previous progress and attainment, as well as information gathered from other areas of the school
- The student's development in comparison to their peers and national data should also be considered along with the parent's views and experience, the student's views and, if relevant, advice from external support services. These

will be recorded. The school and parents/carers will meet, where appropriate, with other agencies

- This assessment will be reviewed regularly to ensure support and intervention are matched to need, barriers to learning are identified and overcome so that a clear picture of the interventions put in place and their impact is developed. With some areas of SEN, the most reliable method of developing a more accurate picture of need will be the way in which the student responds to an intervention

Plan

- Parents/carers, with their child, will meet with the SENCo and the teacher/professionals that may have been involved to decide on the interventions and support to be put in place as well as the expected impact on progress and development. A review date should also be set so that the effectiveness of the intervention can be determined
- The plan will clearly identify the areas of needs, the desired outcomes, the support and resources provided, including any teaching strategies or approaches that are required and when the plan will be reviewed. This plan and provision should be recorded on Edukey
- The support and intervention provided will be selected to meet the outcomes identified for the student, based on reliable evidence of effectiveness and will be provided by staff with appropriate skills and knowledge
- The plan will usually involve a contribution by parents/carers to reinforce learning at home
- Where appropriate, the plan will detail the support from other agencies and how this will contribute to the desired outcomes

Do

- The class teacher remains responsible for working with the student on a daily basis and will work closely with any teaching assistants or specialist staff involved, to plan and assess the impact of support and interventions and how they can be linked to classroom teaching
- The SENCo will support the class teacher in the further assessment of the student's needs, in problem solving and advising on the effective implementation of support

Review

- There will be a review of the plan on the date previously agreed. This review will evaluate the impact and quality of the support and interventions and include the views of the student and their parents/carers
- Parents/carers will be given information about the impact of the support and interventions provided enabling them to be involved with planning the next steps. Where appropriate other agencies will be asked to contribute to this review
- Where a student has complex needs involving more than one agency it will depend on the students' needs and the frequency of the educational reviews as to whether external agencies attend each educational review, this will be agreed at the initial meeting
- This review will feedback into the analysis of the student's needs, then the class teacher, working with the SENCo, will revise the support in light of the student's progress and development, with decisions on any changes made in consultation with the parent and the student
- Where there is a sustained period of insufficient or no progress, the school may decide to gain involvement and advice from a specialist or external agency. The school will consult with parents/carers before involving a specialist or external agency

Exit Criteria

When a student has made sufficient progress in their area of need that they no longer require any provision that is different from or additional to that which is ordinarily available as part of high quality and adaptive teaching, they will no longer be seen as requiring SEN Support. At this point, through discussion and agreement with parents/carers the student will be removed from the schools SEND register.

Statutory Assessment of Needs (EHCP)

Where, despite the school having taken relevant and purposeful action to identify, assess and meet the Special Educational Needs and/or Disabilities of the student, and the student has not made expected progress, the school or parents/carers should consider requesting an Education, Health and Care Needs Assessment (EHCNA). The evidence gathered through the regular review of interventions will help the Local Authority (LA) in determining when this statutory assessment of needs is required.

plan every twelve months as a minimum. We as a school have a duty to co-operate so that we hold the annual review meetings as and when due and complete the appropriate paperwork for this process.

Monitoring and Evaluation of SEND

Regular monitoring of the quality of provision for all students including those with SEND follows the school's assessment and monitoring calendar. In addition, the cycle of Assess, Plan, Do and Review ensures that students with SEND have their individual provision reviewed regularly, and at least termly. Additional training, advice and support will be provided to teaching staff where necessary in order to facilitate student progress and to meet student needs.

Student progress is tracked half-termly and where students are not making sufficient progress additional information is sought and appropriate action taken.

Supporting Students and Families

We value and accept the positive role and contribution parents/carers can make. We make every effort to work in full co-operation with parents/carers, recognising and respecting their roles and responsibilities. Parents/carers are encouraged to work with the school and other professionals to ensure that their child's needs are identified properly and met as early as possible.

In order that they play an active part in their child's development, the school endeavours to provide parents/carers with the relevant information so they can reinforce learning in the home.

At Raynes Park High School we endeavour to support parents/carers so that they are able to:

- Feel fully supported and taken seriously should they raise a concern about their child
- Recognise and fulfil their responsibilities and play an active and valued role in their child's education
- Understand procedures and documentation
- Make their views known about how their child is educated
- Have access to information, advice and support during assessment and any related decision making process about special educational provision

Student Voice

We hold the views of students highly and recognise the importance of gaining genuine student views in promoting the best outcomes. Students are able to share their views in a number of different ways (appropriate to age and ability).

These views are welcome at any time but are specifically sought as part of their annual review and at the end of a targeted intervention. We ask all students to contribute to the setting of their own outcomes.

Partnership with External Agencies

The school is supported by a wide range of different agencies and teams. The school's SEN Information Report details which agencies the school works with and this report can be found on the school website and is up-dated annually.

Transition

A change of school, class and staff can be an exciting, yet anxious time for all students. We recognise that this can be very challenging for some students with SEND. We endeavour to make sure these periods of change are carefully managed in a sensitive way to provide continuity of high quality provision and reassurance to students and families. Our processes for transition are explained further in the SEN Information Report.

Training and Resources

Allocation of resources

- Resources are allocated to support students with identified needs as identified previously
- Each year we map our provision to show how we allocate resources to each year group; this is reviewed regularly and can change during the academic year, responding to the changing needs within our classes
- This support may take the form of adapted work in class, support from a Learning Support Assistant (LSA) in focused intervention in groups, or for individuals
- Specialist equipment, books or other resources that may help the student are purchased as required

Continuing Professional Development (CPD) for Special Educational Needs

- All staff at the school engage in regular training sessions when Quality First Teaching is addressed
- All staff have regular CPD meetings. The progress of all students including those with SEND is a core aspect of the appraisal process and appraisal targets will look at how to develop staff skills in meeting individual student needs as necessary
- Learning Support Assistants engage in training whereby their role is developed

- External trainers are brought in periodically to address more specialist training needs such as dealing with specific medical conditions (e.g. epilepsy, hearing impairment) or to train staff in the use of specific interventions
- Peer support and guidance is available daily for all staff in school and some of the best training development occurs through professional dialogue with colleagues looking at meeting the specific needs of a student

Funding

Funding for SEND in mainstream schools is mainly delegated to the schools' budget. It is the expectation that schools provide support to their students with SEND from their SEND budget.

Where a student requires an exceptionally high level of support that incurs a greater expense, the school can make a request for additional funding.

The school will need to be able to demonstrate how it has spent the funding to date and the impact of this as well as demonstrating why further additional funding is required and how it would be used. This additional 'top-up' funding is then paid from the Local Authorities high needs block into the school's budget.

Personal Budgets

Personal budgets are only available to students with an Education, Health and Social Care Plan (EHCP) or students who are currently under-going a needs assessment for an EHCP. Funding can be made available to parents/carers as a personal budget for them to commission their own provision for their child under certain conditions.

Parents/carers who would like to enquire further about using the personal budget should speak in the first instance to the SENCo.

Roles and Responsibilities

Provision for students with Special Educational Needs is a matter for the school as a whole. In addition to the Governing Body, Headteacher and SENCo, all members of staff have important responsibilities.

Governing Body:

The Governing Body endeavours to follow the guidelines as laid down in the SEND Code of Practice (2015) to:

- use their best endeavours to make sure that a student with SEND gets the support they need – this means doing everything they can to meet students and young people's Special Educational Needs and Disability
- ensure that students and young people with SEND engage in the activities of the school alongside students who do not have SEN
- designate a teacher to be responsible for co-ordinating SEND provision – the SENCo

- ensures that the SEN Information Report show the arrangements for the admission of disabled students, the steps being taken to prevent disabled students from being treated less favourably than others, the facilities provided to enable access to the school for disabled students and their accessibility plan showing how they plan to improve access progressively over time

Headteacher:

The Headteacher has responsibility for the day-to-day management of all aspects of the school's work, including provision for students with Special Educational Needs. The Headteacher will keep the Governing Body fully informed on Special Educational Needs issues. The Headteacher will work closely with the SENCo and the Governor with responsibility for SEND.

SENCo:

In collaboration with the Headteacher with responsibility for SEND and the Governing Body, the SENCo determines the strategic development of the SEND policy and provision with the ultimate aim of raising the achievement of students with SEND. The SENCo takes day-to-day responsibility for the operation of the SEND policy and co-ordinates the provision for individual students, working closely with staff, parents/carers and external agencies. The SENCo provides relevant professional guidance to colleagues with the aim of securing high-quality teaching for students with Special Educational Needs.

Through analysis and assessment of student's needs, and by monitoring the quality of teaching and standards of students' achievements and setting targets, the SENCo develops effective ways of overcoming barriers to learning and sustaining effective teaching. The SENCo liaises and collaborates with class teachers so that learning for all students is given equal priority.

The principal responsibilities for the SENCo include:

- Overseeing the day-to-day operation of the SEND policy
- Co-ordinating provision for SEND students and reporting on progress
- Advising on the graduated approach to providing SEN support – Assess, Plan, Do, Review
- Advising on the deployment of the school's delegated budget and other resources to meet students' needs effectively
- Managing the SEND team
- Monitoring relevant SEND CPD for all staff
- Overseeing the records of all students with Special Educational Needs and ensuring they are up to date
- Liaising with parents/carers of students with Special Educational Needs
- Contributing to the in-service training of staff
- Being a point of contact with external agencies, especially the Local Authority (LA) and its support services

- Liaising with early years' providers, other schools, Educational Psychologists, Health and Social Care professionals and independent or voluntary bodies
- Liaising with potential next providers of education to ensure a student and their parents/carers are informed about options and a smooth transition is planned
- Monitoring the impact of interventions provided for students with SEND
- Leading on the development of high quality SEND provision as an integral part of the School Improvement Plan
- Working with the Headteacher and the school governors to ensure that the school meets its responsibilities under the Equality Act (2010) with regard to reasonable adjustments and access arrangements

All Teaching and Non-Teaching Staff:

- All staff are aware of the school's SEND policy and the procedures for identifying, assessing and making provision for students with Special Educational Needs
- Class teachers are fully involved in providing high quality teaching, adapted for individual students. This includes reviewing and, where necessary, improving, their understanding of strategies to identify and support vulnerable students and their knowledge of the SEN most frequently encountered
- Class teachers are responsible for setting suitable learning challenges and facilitating effective special educational provision in response to students' diverse needs in order to remove potential barriers to learning. This process should include working with the SENCo to carry out a clear analysis of the student's needs, drawing on the teacher's assessment and experience of the student as well as previous progress and attainment
- Learning Support Assistants (LSAs) will liaise with the class teacher and SENCo on planning, on student response and on progress in order to contribute effectively to the graduated response, (Assess, Plan, Do, Review)

Meeting Medical Needs

The Children and Families Act (2014) places a duty on schools to make arrangements to support students with medical conditions. Individual Health Care Plans (IHCP) will normally specify the type and level of support required to meet the medical needs of such students.

Where students and young people also have SEND, their provision should be planned and coordinated. For those students with an Education, Health and Care Plan (EHCP) this will be used as it brings together health and social care needs, as well as their special educational provision.

The school recognises that students at school with medical conditions should be properly supported so that they have full access to education, including school trips and Physical Education. Some students with medical conditions may be disabled and where this is the case the school will comply with its duties under the Equality Act (2010).

Students in Hospital

The member of staff responsible for ensuring that students with medical needs have proper access to education will liaise with other agencies and professionals, as well as parents/carers, to ensure good communication and effective sharing of information. This will enable optimum opportunities for educational progress and achievement.

SEN Information Report

The school will ensure that the SEN information is accessible on the school website. The information published will be updated annually and any changes to the information occurring during the year will be updated as soon as possible.

Behaviour Policy

The school will ensure that Reasonable Adjustments (RA) are made for students with SEND as outlined in the school's Behaviour Policy.

Monitoring and Accountability

Accessibility

The school is compliant with the Equality Act (2010) and Accessibility legislation. Although our buildings are not designed for full wheelchair accessibility, some areas are accessible for wheelchair users.

Storing and Managing Information

Student SEND records will be kept in accordance to the DfE guidance contained in "Statutory Policies for schools" (September 2014)

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/284301/statutory_schools_policies.pdf

Responding to Complaints

In the first instance, parental complaints about the provision or organisation of SEND are dealt with through the procedures outlined in the School's Complaints Policy.

If there continues to be disagreement with regard to SEND provision the Local Authority (LA) should make arrangements that include the appointment of independent persons with a view to avoiding or resolving disagreements between the parents/carers and the school. This includes access to mediation before tribunal. Parents/carers have a right to appeal to a SEND tribunal at any stage.
